COVER • COVER

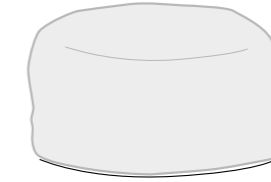

Le COVER sono realizzate con trattamento idro-oleorepellente e antimacchia. Sono ideali per proteggere i tuoi mobili da un improvviso temporale estivo o durante le ore notturne. Prima di coprire i mobili e i cuscini accertarsi che siano completamente asciutti. Non riporre mai né ripiegare le cover bagnate ma lasciarle asciugare in un luogo ben areato. Non sono idonee alla copertura permanente dei cuscini perché la presenza delle cuciture potrebbe determinare accumulo di umidità con la conseguente formazione di muffa. Non utilizzare solventi per la pulizia in quanto potrebbero intaccare, danneggiare o scolorire la superficie trattata.

VENTILAZIONE/
AIR WINDOW

The COVERS are water-repellent, oil-repellent and anti-stain. They are ideal to protect your furniture from a sudden summer storm or during the night. Furniture and cushions should be thoroughly dry before using the covers. Never store or fold wet covers but let them dry in a well-ventilated place. They are not suitable as permanent covers for cushions as the presence of seams may collect moisture and lead to the formation of mold. Do not clean with solvents as they may affect, damage or discolour the treated surface.
